

# **My visit to the Weardale Railway**

When I arrive at the station I will walk through the ticket hall. This is where I can get my ticket.

I can then go to the platform

There is a cafe at the railway.

I can sit inside or outside the cafe

This is the platform were I can wait for the train

These steps will take me to the platform at the other side of the tracks

On the other side of the tracks there is a shop that sells lots of things

What is sold in the shop may change

This is one of the trains at the station

This is inside of the train

When the train arrives I will wait for an adult to say it is safe to get on board. Then I can find a seat.

The train might be noisy, the windows and doors can make a banging sound and the brakes can screech

There might be lots of other people travelling on the train too

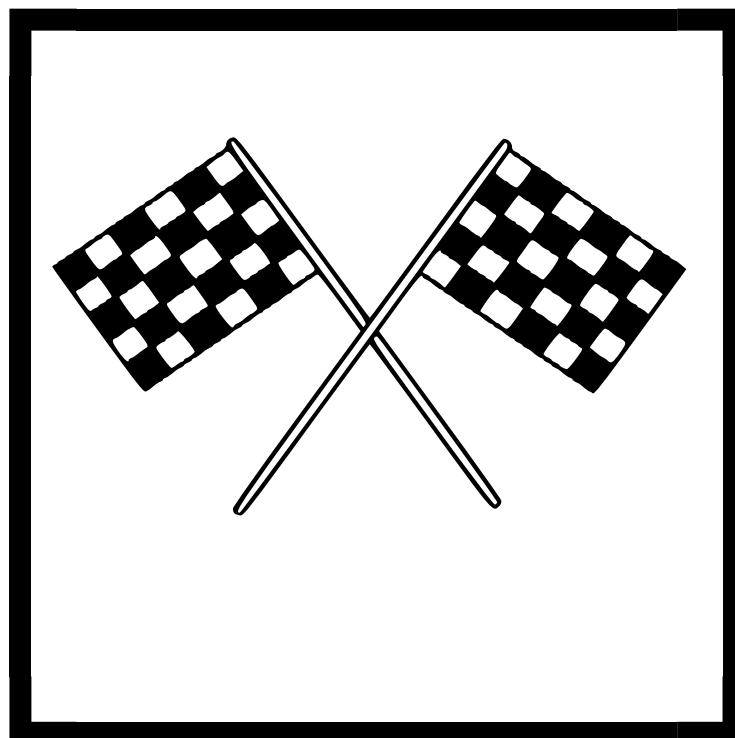

I will travel on the train and I might see lots of countryside through the window

The train will take me back to Stanhope Station

My train journey is then finished and I will exit the train
